CO-ORDINATING COMMITTEEEXPORT OF NIOBIUM AND TANTALUM POWDER TO POLANDMEMORANDUM BY THE UNITED KINGDOM DELEGATION

The United Kingdom authorities have been asked to approve the export to Poland of the following:

50.5 gms. Niobium Powder £44.5 I.L.1649
(spectrographically standardised)

30 gms. Tantalum Powder
(spectrographically standardised) £16 I.L.1670

These powders which are being purchased by C.IECH are to be used for laboratory research.

2. The United Kingdom authorities wish to authorise these small exports but feel that the trivial value does not warrant the seeking of assurances from the Polish authorities. When the Revised Minimum Shipments Procedure comes into force, these small exports will be dealt with under those rules, without the need for prior consultation.

3. Her Majesty's Government invite consideration of this proposal under the terms of Annex A(c) to Doc. 1473 and would be grateful for the views of Member Governments by July 27.

United Kingdom Delegation
Paris.
